

Integrate effortless Stablecoin Payments in **minutes!**

Founder-Product Fit

Solana dev with **5+ years of experience** in payments

Faced challenges integrating stablecoins

Dimmed it fit to develop developer-first platform

What we need,
and what the market
demands

THE PROBLEM

Stablecoin integration is **clunky** and **complex**

- Complex blockchain UX
- Limited payment tooling
- No payout flexibility
- Compliance friction
- Idle funds with no returns

THE SOLUTION

ARCH makes stablecoin integration **simple** with clean APIs and SDKs

Arch provides developer-first stablecoin payment infrastructure:

- Integrate in minutes
- Multi-stablecoin payouts
- Compliance tooling
- Yield-generating options
- Hosted UI for non-dev users

Market Opportunity

Exploding stablecoin and remittance volumes signal massive demand

Go-To-Market Strategy

-  **Developer Advocates**
Leverage trusted voices within the Solana ecosystem
-  **Direct Outreach**
Personally engage key developers and projects
-  **Open-Source SDKs**
Provide accessible, easy-to-integrate development tools
-  **Pilot Partners**
Launch with selected teams to validate use cases
-  **Superteam Bounties**
Use targeted bounty programs to drive early adoption
-  **Hackathons**
Host events to showcase product capabilities and build community
-  **Real time Support**
Offer responsive help to keep developers moving forward.
-  **Fast Integration**
Ensure developers can onboard quickly and efficiently
-  **Early Adopter Incentive**
Reward initial users for feedback and adoption

Traction

Business Model

The model is highly scalable, as transaction volume and integrations grow, so do margins. Future analysis will include CAC vs. LTV, with a focus on low acquisition costs through ecosystem partnerships and long-term retention via dev-friendly infrastructure.

COMPETITOR ADVANTAGE

While several projects are working on stablecoin payments,
Arch is unique in its focus
